*No. 3 meets ASTM D1863 size.

NOTE: All colors and sizes represented in the catalog are approximate. Natural color variations will occur in actual material available.
AGGREGATES

All of our aggregates are kiln-dried and double screened available for various applications. We have the cleanest material available for maximum adhesion.

Colored Rock (7/16”)

White  
Navajo Blend

Gold  
Green
Blue  (Special Order)  Beige

Rose  Brick

Cinder (5/16")

Red  Black
Title-24 Compliant Roofing Aggregate

Glacier White

Our Glacier White (3/8”) is a white aggregate coated with a highly reflective ceramic-mineral surface. Glacier White exceeds "cool roof" requirements and can be installed over black asphalt.

Arctic White

Our Arctic White is a naturally reflective white granule (No. 11), which exceeds "cool roof" requirements. Arctic White is used in foam roofing applications and can be used with Tremco sealants: www.tremcosealants.com

(Special Order)
Granite sand No. 12

Granite sand No. 10

No. 3 (ASTM D1863)

No. 4

No. 5

No. 4/5 Blend
Ballast (Large)

Our Ballast can be used for roofing over Single Ply Systems for added thermal mass qualities. Can be applied at various weights. Call for details.

White

Grey

Special Order: also available in Rose and Navajo Blend.

Rose (Special Order)

Green (Special Order)
SANDS

We offer clean, kiln-dried, and double screened sands. We also have 100% recycled fill sand.

Granite Sand

No. 10

No. 12

Silica Sands

No. 16

No. 20

No. 30
Granules (No.11)

Ceramic-coated Granules in specific colors for use in roofing shingles.

Solid Color Granules:

- Red C22
- Terracotta C27
- Dark Brown C41
- Light Brown C46
- Black C51
- Medium Black C53
- Tan C65
- Buff C68
- Dark Grey C71
Blue Grey C75  Light Grey C76  Green C37

White C93  Arctic White No. 11
We provide custom color-blended granules. Call for details.

Blended Color Granules:

- Burnt Sienna
- Cambridge Grey
- Cedar
- Desert Tan
- Shake
- Slate
- Weathered Wood
SPECIALTY MATERIALS

Feed Grit

We’ve supplied the poultry industry with quality, kiln-dried feed grit for over 50 years. The following sizes are available and used in the Pigeon, Chicken, Ostrich, and Turkey farming industries. Call for specific nutritional information.

- No. 10 Health Grit
- No. 10 Iron Health Grit
- No. 16 Chicken Grit
- No. 6 Calcium Poultry blend
- 3/8” Turkey Grit
- 1/2” Ostrich Grit
- Pullet Feed
- High Grade Calcium meal
Cattle Feed Grit

Our Cattle Feed is milled in Riverside, California from a deposit of high quality calcite. This product is characterized by the following:

<table>

- This material does not contain any regulated asbestiform minerals. This product has been analyzed using standard XRD, TEM, and PLM methods.

- Generally Recognized as Safe (GRAS) for use as a direct or indirect human food ingredient under 21 CFR 184.1409.

- There is no Cadmium, Hexavalent Chromium, Lead or Mercury additives. Our products contain only trace amounts of these metals, far below the final 100 ppm combined level specified by CONEG.

- All ingredients in this product are naturally occurring minerals. The raw materials are mined from natural deposits and are processed by mechanical methods. We have no reason to believe that our products contain any animal derived materials.

- The Cattle Feed we sell is approved for use as an ingredient in or on processed products labeled as “organic” or “made with organic” in accordance to the USDA 7CFR 205- National Listing section 205.605 (a) (3).

All products are sold upon the understanding that the user is solely responsible for determining suitability for the intended use. All information and recommendations provided herein are based upon our research and are believed to be accurate, but no guarantee, either expressed or implied, is made with respect thereto or with respect to the infringement of any patent. A-1 Grit Company makes no warranty of merchantability or suitability for any particular purpose in connection with any sale of the products described herein. Inconsistent terms and conditions contained in Buyer’s purchase order shall not be binding to A-1 Grit Company, unless reflected in writing signed by A-1 Grit Company representative. The information contained herein is not to be copied or otherwise used in any publication in whole or in part, without written permission from A-1 Grit Company.
Rock Dust Fertilizer

Rock dust is an organic soil and plant fertilizer derived from the screening and drying process of our manufacturing of aggregates. Rock dust has been proven to enhance plant and vegetables producing healthier and stronger plants.

Rock dust is:

- 100% Natural
- Chemical Free
- Harmless to pets
- Safe to handle
- Increases phosphorus availability
- Increases moisture holding properties in the soil
- Improves soil structure and drainage

Suggested application: Apply approximately 5 lbs. of rock dust per square yard. For Pots: 1 6-inch pot requires about 1 ounce of dust.
